Algebra & Geometry ~ Summer Classes

Summer Math - 2018 – Application Form

Student's name: _____

Questionnaire

1. At what level is the student in math presently?
2. Is mathematics discussed at home with the student?
3. Does the student have a favorite topic in mathematics?
4. Does either parent work with mathematics? If so, please outline.
5. What do you expect to gain from The Math Club experience?
6. Is it acceptable for the student to be provided with weekly homework?
7. List names of friends that you want to be registered with at the same time:
8. Additional questions or comments:

Notes:

1. The meeting place will be at the Hancock United Church of Christ, 1912 Massachusetts Avenue, Lexington, Massachusetts 02421. The classes will meet a total of ten days on either Monday and Wednesday or Tuesday and Thursday late afternoons.
2. The students will be given a cold snack at the end of the class.
3. Contact Joe Quigley at 781-860-9012 or Joe@TheMathClub.com with questions.
4. I have developed this course over the last sixteen years as a continuation of preparing my students to compete in the Math Olympiad Contest during the school year. The preparation is a structured but creative course on investigating algebra through the behavior of numbers. I start with the number line and develop the structure of algebra from basic principles. The course materials are the beginning of a new book that I am writing.
5. Please contact me if you have specific math instruction needs for your student. I have a large source of materials for development of math skills and methods. If needed, I can customize my materials for specific student needs. Tutoring is available, if needed.
